

PayPal Account Bank Details Confirmation

In order to confirm your PayPal account and be able to receive payments from our system, please follow this easy guideline:

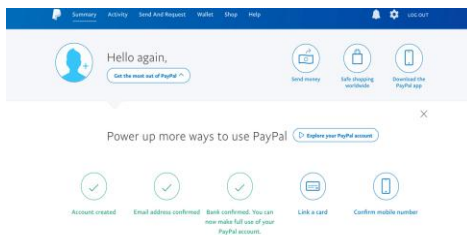

1. When you access your PayPal account click on Summary. Here you will find all the basic information about your account.
2. Click on “Get the most out of PayPal”

A pop up window will open with 5 steps needed in order to confirm your account:

1. Create an account
2. Add your email
3. Add your Bank details
4. Add your credit card details
5. Add your mobile telephone number

To update each piece of information, just click on the icon.

PLEASE NOTE: Unless all these details are added your account will not be confirmed by PayPal and will not be able to receive payments from us.

This is how the icons should look like in order to have all your PayPal account information confirmed.
